SPECIAL INTERESTS:

Family outings, hunting, fishing, snow machining, boating.

STATEMENT:

In my two terms, I have represented the largest House District in the nation, encompassing 209,406 square miles. This is over one third of our great state. Now with the advent of redistricting, I seek to present an even larger land district with even more diverse economic and cultural needs. It is a challenge, but one I consider with heightened responsibility.

Over the last two years, over \$140 million in capital projects was appropriated for our district, including basic amenities like water and sewer projects, and deferred maintenance and construction of schools. Funding of the Power Cost Equalization (PCE) program was maintained.

With the vast wealth of our great state, we have opportunities like no other. Alaska must identify economic and resource potentials in the state. We need transportation corridors to access and support resource development. Pressing for and investing in alternative means of energy, such as natural gas and electrical interties, to bring affordable energy to residents and allow for industry in rural communities is a priority. We need to promote and support advanced job training programs and create a strong Alaska work force. These investments will provide jobs and economy for future generations.

Education continues to be a top priority. During my tenure, we gained school funding increases, efficiencies and encouraged accountability in student, teacher, and parent roles.

My commitment to Subsistence is and remains: Subsistence yesterday, Subsistence today, and Subsistence tomorrow.

Please feel free to contact me to share your thoughts on issues of concern to you.
